

## Introducing HP Page+ Powered by PRINTSolv

SYNNEX presents HP *Page+* Powered by PRINTSolv – the most-robust managed print services solution available today. The immediate benefit of this program includes the significant upfront hardware and supplies discount to help our resellers. This program gives our resellers the ability to sell new HP printers and take advantage of the supplies annuity. In addition, *Page+* standardizes end users' HP supplies replenishment, streamlines their printing-related processes, and consolidates print suppliers all into one – YOU!

PRINTSolv is a single-source solution that enables you to proactively assess, monitor, and manage your customers' entire printing environment. PRINTSolv makes it possible for you to manage incremental hardware, service, and supplies revenue streams.

Open the door to the managed print services market, expand your managed IT services capabilities, or add value to your current document management procedure – with PRINTSolv!

### PRINTSolv Features:
